

A network diagram illustrating a complex structure. A central cluster of blue nodes is connected by yellow lines, forming a dense, interconnected web. To the left, a separate cluster of yellow nodes is visible. At the bottom, a small cluster of grey nodes is present. The overall structure suggests a hierarchical or modular organization.

A network diagram illustrating a complex structure. A central cluster of blue nodes is connected by yellow lines, forming a dense, interconnected web. Several yellow nodes are positioned around the periphery of this central cluster, and a few purple nodes are located on the far left side of the diagram.
